RELAX BY THE SHORES OF WEST LAKE OKOBOJI

West Lake is the largest of a chain of five connecting lakes, which is considered part of Iowa's Great Lakes. According to the Iowa Department of Natural Resources, West Lake Okoboji is comprised of 3,847 surface acres of water with an average depth of 38 feet and maximum depth of 136 feet. There are 19.8 miles of shoreline around West Lake. West Lake Okoboji is considered a blue water lake formed by glacial movements retreating north, and is only one of three blue water lakes in the world. More than 47 species of fish can be found in West Lake, with approximately 11 species of popular sport fish with Muskellunge being the largest.
